EDUCATION

Lobachevsky State University of Nizhny Novgorod (UNN)

M.Sc. in Applied Mathematics and Informatics

B.Sc. in Fundamental Informatics and Information Technologies

Nizhny Novgorod, Russia

2026 – Present

2022 — 2026

Yandex School of Data Analysis

Data Science Track

2nd year

EXPERIENCE

Engineer

Huawei

Jan. 2026 – Present

Nizhny Novgorod, Russia

- Develop the SGLang inference stack for Ascend NPUs, focusing on LLM and diffusion-model inference, attention backends, and performance optimization.
- Integrated sparse attention backends into SGLang Diffusion for Ascend NPU, including backend configuration, accuracy validation, documentation, and performance profiling.
- Implemented support for the mxfp8 Flash Attention backend and w8a8f8/w4a4f8 quantized Wan and Flux models.
- Investigated Qwen3 and diffusion-LLM prefill acceleration and inference bottlenecks on Ascend NPUs.
- The list of the PRs: sgl-project/sglang/pulls.

Engineer Intern

Huawei

Jul. 2025 – Aug. 2025

Nizhny Novgorod, Russia

- Researched disaggregated execution of prefill and decode stages in vLLM on hardware accelerators.
- Adapted the KV-cache transfer engine to the target accelerator architecture and benchmarked LLM performance under disaggregated serving.

OPEN SOURCE & PROJECTS

OpenCV - QR and ArUco Detection Optimization | C++

- Implemented `cv::approxPolyN`, a greedy convex-polygon approximation algorithm with a configurable target side count and area-error threshold for contour processing.
- The feature [Pull Request #25607](#) was merged into OpenCV and shipped in OpenCV 4.11.0.

PUBLICATIONS AND CONFERENCE PARTICIPATION

A. I. Mironov, N. A. Sokolov, A. A. Serebryakova

2025

- “The Effect of the Volume of Synthetically Generated Images in the Dataset for the Task of Axon Segmentation in Brain Electron Microscopy.” *GraphiCon 2025*. [DOI](#)

COMPETITIVE PROGRAMMING

ICPC 2025–2026

- Nizhny Novgorod qualifier: 2nd-degree diploma; Saratov quarterfinal: 3rd-degree diploma; ICPC semifinal, NERC final in St. Petersburg: 3rd-degree diploma.

ICPC 2024–2025

- Nizhny Novgorod qualifier: 2nd-degree diploma; Saratov quarterfinal: 59th place.

TECHNICAL SKILLS

Languages: Python, C++, SQL, Triton

ML / Inference: PyTorch, SGLang, vLLM, OpenCV, NumPy, pandas, scikit-learn, Matplotlib

Systems / Tools: Linux, Git, Jupyter, LaTeX

English: B1
