

MIRONOV ARSENIY

Birthdate	01.04.2004, 21 years old
City	Nizhny Novgorod
Phone number	+7 (917) 618-94-15
Email	arseniy.mironov.01@mail.ru
GitHub	github.com/Napkin-AI
Telegram	@xNapkin

EDUCATION

University	N. I. Lobachevsky State University of Nizhny Novgorod
Year of graduation	2026
Education level	4 th year of Bachelor's Degree
Major	Fundamental Informatics and Information Technologies
Form of Education	Full-time

ADDITIONAL EDUCATION

Program	Yandex School of Data Analysis
Education level	1 st year
Track	Data Science

ОПЫТ РАБОТЫ

Future Star Internship, Huawei

July — August 2025, Nizhny Novgorod

Primary responsibilities include researching support for disaggregated execution of prefill and decode in the vLLM framework.

- Adapted the KV-cache transfer engine to the target accelerator architecture
- Investigated the performance of LLMs in disaggregated execution of prefill and decode stages on accelerators

Assistant Engineer, Huawei

January 2026 — present, Nizhny Novgorod

Primary responsibilities include maintaining and improving the SGLang framework.

- Research on prefill phase acceleration for Qwen3 models
- Support for sparse attention mechanisms for diffusion models, research support for LLM. Link to [Pull Request](#)
- Analysis of diffusion LLM inference, identification of bottlenecks, and inference acceleration

PROJECTS

Optimization of QR and ArUco Detection Algorithm in OpenCV Library

During my work on the "ITLab" project at university, I explored various approaches to improving the image preprocessing algorithm and utilizing image pyramids. My personal contribution involved optimizing the algorithm for detecting rectangular contours in images. As a result, I prepared and submitted a [Pull Request](#) to the OpenCV repository with a new algorithm for detecting rectangular contours, which was subsequently approved and merged into the main branch of the library.

SKILLS

Programming languages	C++, Python, Triton, SQL.
Libraries	PyTorch, SGLang, OpenCV, NumPy, Pandas, Scikit-learn, Matplotlib
Others	Linux, Git, Jupyter Lab, Excel, Word, Latex
Soft Skills	Handles stress easily, responsible, able to work in a team, English level B1

ADDITIONAL INFORMATION

Hobbies and Interests

- Improving my English language skills
- Going to the gym
- Playing chess occasionally

Competitions:

ICPC 2024-2025

- Qualification (Nizhny Novgorod): 25th place, 2nd award
- Quarterfinal (Saratov) 59th place

ICPC 2025-2026

- Qualification (Nizhny Novgorod): 16th place, 2nd award
- Quarterfinal (Saratov) 21st place, 3rd award
- Semi-final, NERC final (Saint Petersburg), 127th place, 3rd award
